I. THE MILITARY SITUATION IN SOUTH VIETNAM

1. A large number of small-unit contacts were reported in various parts of South Vietnam over the weekend resulting in at least 115 enemy soldiers killed and more than 50 others detained. Friendly casualties were 17 killed and 97 wounded. Large scale military activity was confined to the reported ambush of elements of a Marine battalion in Operation KINGFISHER in the southern half of the DMZ.

2. Press reports indicate that the Marine battalion was ambushed while moving back down the same road they had used last Thursday to enter the southern half of the DMZ. Preliminary reports of Marine casualties for the 10-hour battle showed 23 killed and 119 wounded. Enemy losses are presently unknown, although the press indicates that as many as 40 North Vietnamese soldiers may have been killed and many others wounded.

Enemy forces will apparently use the Soviet 122-mm. rocket in their attack. The plan reportedly calls for NVA units to defeat friendly reaction forces dispatched to aid Dak Pek; when this is accomplished, the camp is to be overrun.
